

Global Finishing Solutions

Maintenance

Booth Maintenance Programs

Tasco Equipment Company offers custom designed maintenance programs that fit each individual shops specific needs. Especially designed programs that allow you to pick weekly, monthly, quarterly, or annual services. Programs can be custom billed into equal payments with approved credit to keep booth maintenance costs level throughout the year.

Booth Filter Programs

The largest paint booth filter inventory in the state coupled to an advanced computerized client database cuts down on out of stock situations. Tasco Equipment Company offers a filter only program where your projected demands are delivered automatically when they are needed reducing your storage space needs and inventory costs.

Booth Refurbishment Services

We offer complete refurbishment with painting as well as mechanical restoration by factory trained personal.

Shop Maintenance Services

Preventative maintenance is offered on compressors, lifts, gun washers, fresh air breathing systems, air line desiccant systems and most other shop equipment.

Service

Complete Equipment Service

With largest number of factory certified technicians in the region Tasco Equipment Company offers complete service on a wide variety of automotive equipment. Utilizing a full time experienced dispatch department in addition to a well stocked parts department allows us to remedy and rectify most problems in record time.

Sales & Installation

Paint Booth Sales

Tasco Equipment Company is an exclusive distributor for GFS spray booths. Global Finishing Systems is the industry leader in spray systems design and offers investment quality spray booths at competitive pricing.
